

B2B BOOKING PLATFORM

Your products.
Your agents. Your margins.

A branded travel-trade portal connected to your DMC operations.

THE BUSINESS CASE

Build a digital distribution business.

Sell around the clock

Let agents search and make configured bookings beyond office hours.

Reach more partners

Extend distribution across existing and new source markets.

Sell your own inventory

Make negotiated hotels and destination products easier to access.

Protect margins

Control market, service and partner-specific commercial rules.

Reduce manual work

Digitise repeat searches, requests, confirmations and documents.

Connect fulfilment

Move online sales into DMC24 reservations and operations.

WHAT YOUR TEAM CAN DO

Practical capabilities. Connected business value.

A complete service mix

Hotels, transfers, transport, activities, tickets, day tours and packages.

Hybrid inventory

Combine your own contracts with selected travel APIs and channel managers.

Commercial control

Fixed or percentage markups by agent, market, region and service.

Partner onboarding

Online registration, KYC review, approval, commercial setup and activation.

Credit & payments

Configure approved credit facilities, limits and payment workflows.

Agent workspace

Bookings, requests, status, confirmations, vouchers, invoices and accounts.

Route services to fulfilment

Keep the sale connected to the service.

Clear responsibilities and shared information support every handover.

CONTROL WHERE IT MATTERS

A clearer workspace.
A better-informed team.

Approve your partners

Registration and KYC support a controlled agent network.

Set the terms

Define partner status, credit, markups and applicable rates.

Serve international markets

Supported currencies, configured languages and responsive access.

Keep your brand

The digital relationship remains between your DMC and your agents.

INTEGRATION & EXPANSION

Part of a connected DMC24 ecosystem.

Travel inventory

Selected hotel, transfer and activity APIs can extend your own contracts.

Channel managers

Connect supported rate and availability sources where scoped.

Payments

Configure the gateway, currency and collection workflow for your market.

Multi-DMC gateway

Bring several destinations together through one B2B sales platform.

Availability depends on your selected edition, configuration and agreed scope. API connections require appropriate access, supplier approval, commercial terms and implementation validation.
