

# Your destination.
# Your advantage.

## One connected business.

Destination management software that connects your people, products, operations and growth.

THE BUSINESS BEHIND THE JOURNEY

# Your guests see the journey. You see every moving part.

DMC24 connects the commercial, operational and financial work that makes a destination business run.

SELL

## From enquiry to a confident quotation.

DELIVER

## From confirmed services to coordinated operations.

CONTROL

## From collections and costs to file profitability.

**Your expertise makes the journey.**

DMC24 connects the business behind it.

A STRONGER OPERATING BUSINESS

# Better connected.
# Better positioned to grow.

## Respond faster

Keep enquiries, rates and quotation versions together.

## Protect your margin

Apply market rates, markups and commercial rules.

## Coordinate delivery

Connect reservations, movements and service status.

## See what you earn

Track provisional and final file profitability.

## Reach more buyers

Extend sales to agents, travellers and local guests.

## Lead with visibility

Use dashboards and MIS to guide decisions.

## Sell with clarity. Operate with control.

Grow with visibility across your destination business.

FROM ENQUIRY TO PROFITABILITY

# One enquiry.
# A complete business workflow.

### Enquiry

Capture requirements

### Costing

Apply rates and rules

### Quotation

Present the proposal

### Booking

Confirm the travel file

### Reservations

Coordinate suppliers

### Operations

Deliver every service

### Finance

Track money and costs

### Profitability

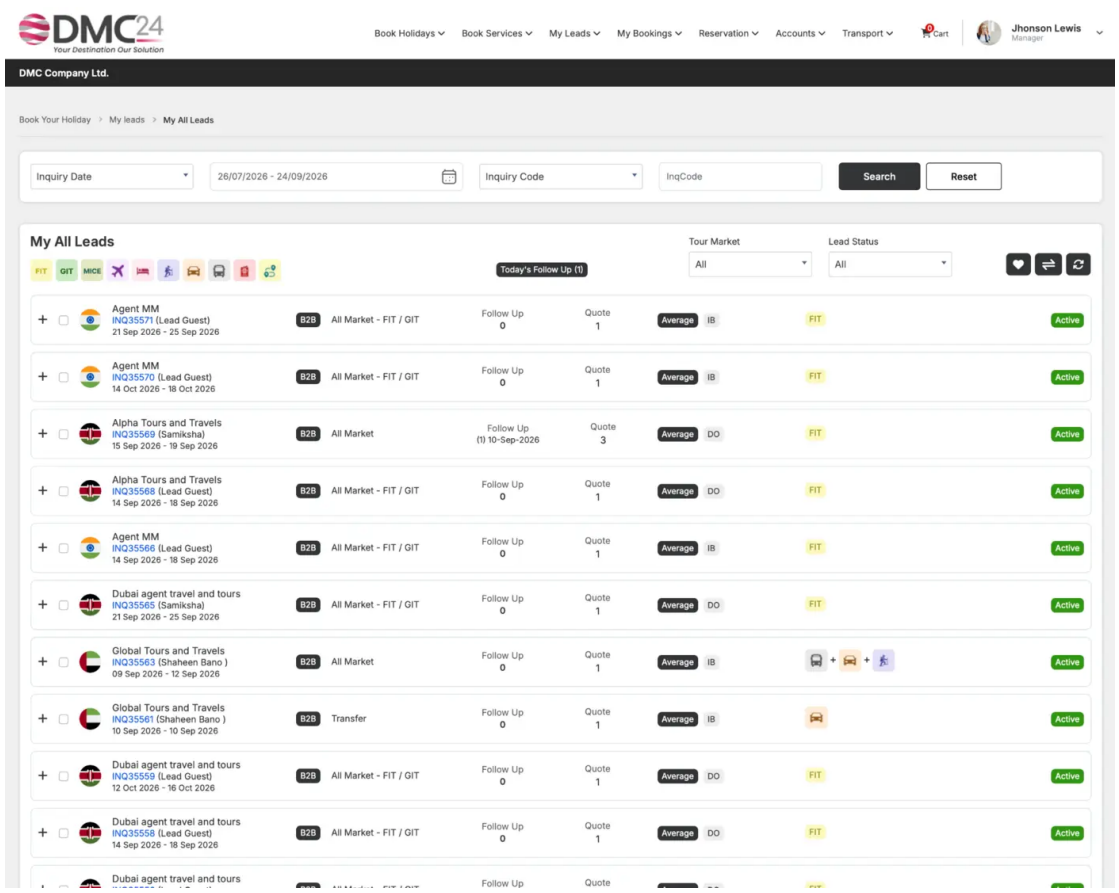

Review the result

### A shared travel file. A shared view.

Connect the departments that shape the guest experience.

CONVERT EXPERTISE INTO BUSINESS

# Build a stronger proposal. Keep every opportunity moving.

## Follow the opportunity

Enquiries, follow-ups and ownership.

## Build FIT & group quotes

Structured costing, options and markups.

## Present with confidence

Digital, PDF and email itineraries.

### AI itinerary assistance

Support programme drafting, with your team validating the final itinerary.

YOUR COMMERCIAL FOUNDATION

# Your contracts.
# Working for your business.

## Make rates usable

Hotels, transfers, transport, activities and more.

## Respect each market

Seasons, currencies, offers and supplier terms.

## Keep selling connected

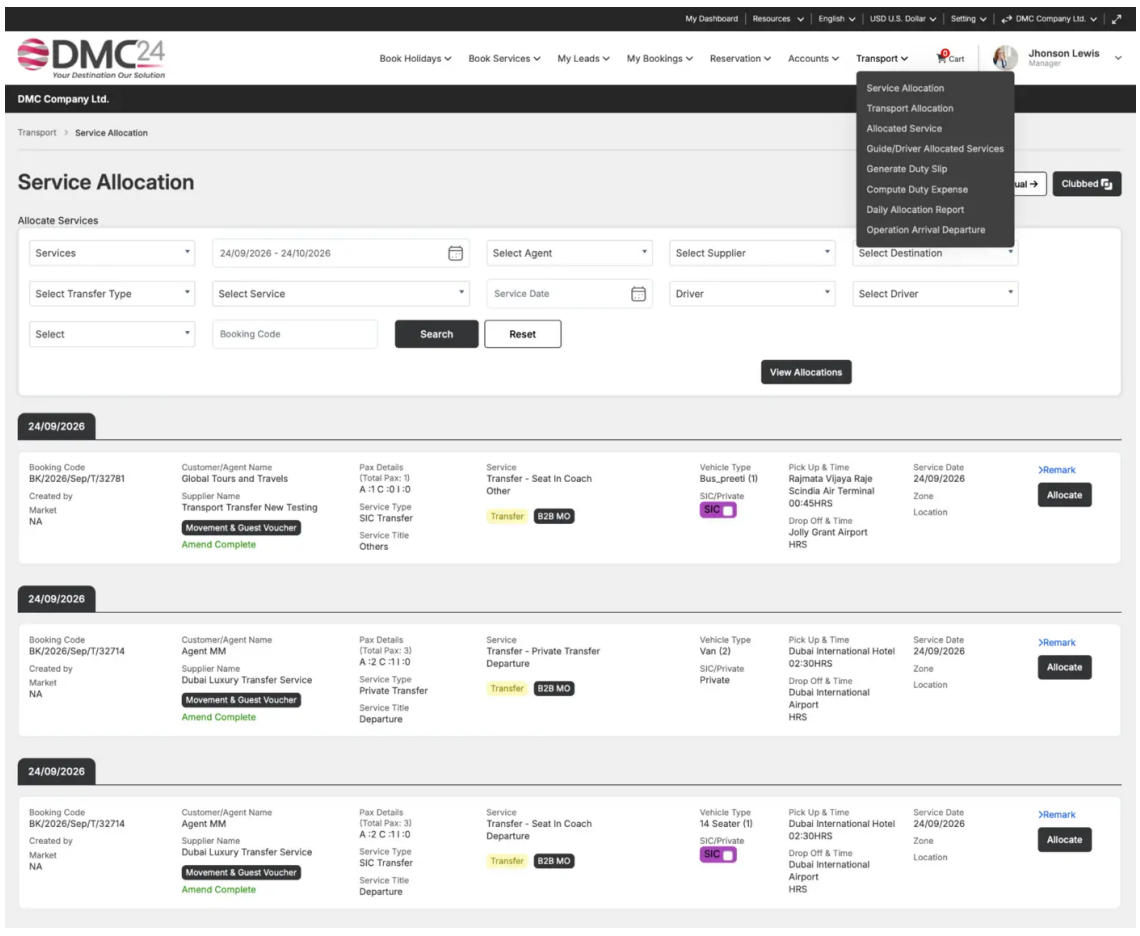

Bring contracted products into costing and bookings.

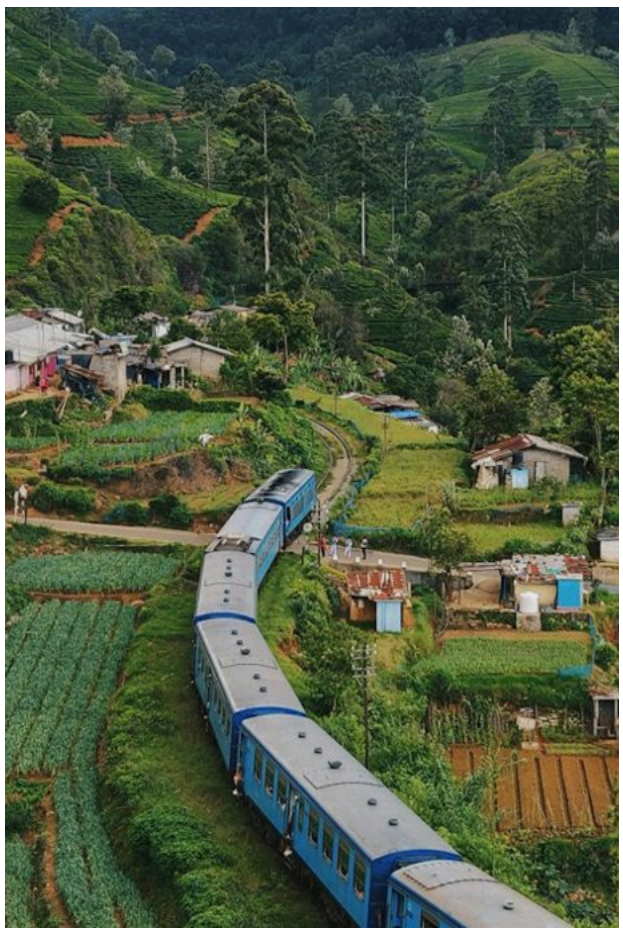

### Turn destination knowledge into usable inventory.

Connect commercial detail with the quotations your team creates.

CONFIDENCE ON THE GROUND

# Clarity across the team. Control across every service.

## Confirm the detail

Supplier requests, confirmations and vouchers.

## Coordinate the day

Vehicles, drivers, guides and guest movements.

## Manage the change

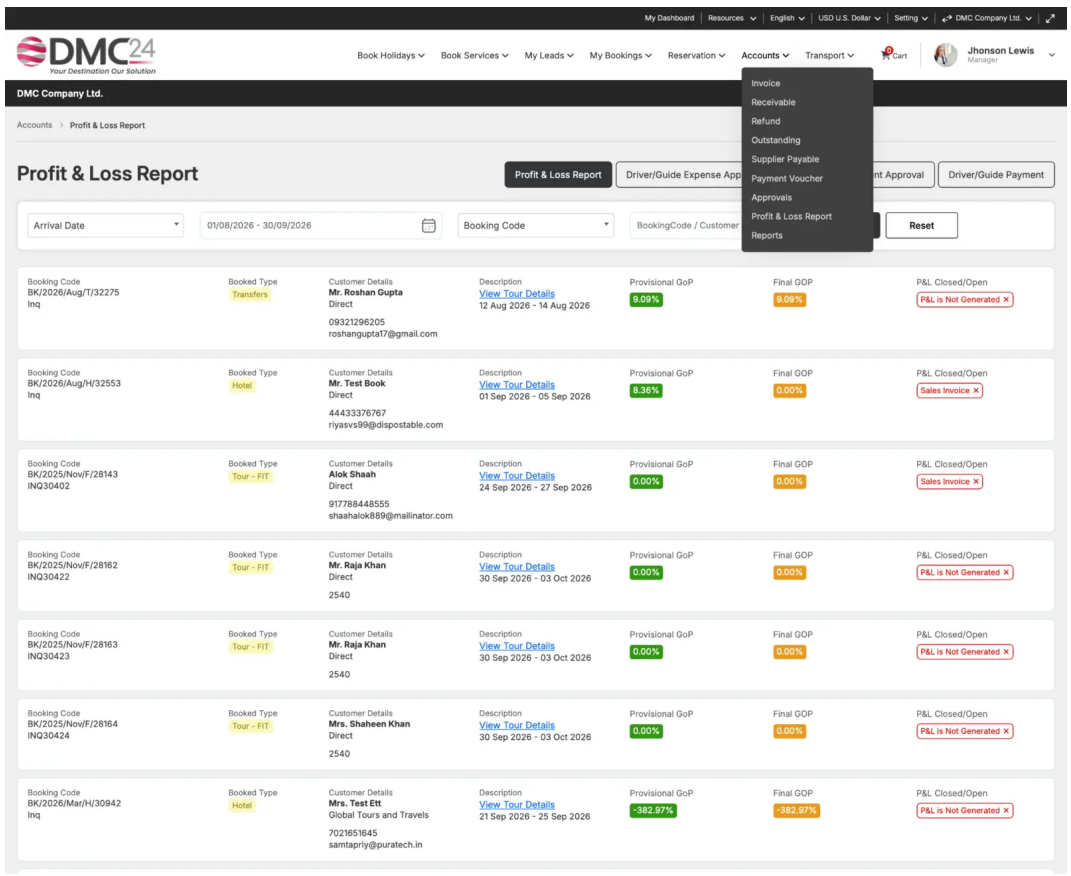

Keep service updates visible to the teams involved.

**From confirmed booking to coordinated fulfilment.**

Make operational detail visible where the work happens.

UNDERSTAND WHAT THE BUSINESS EARNS

# Revenue tells one story. Profit tells the full story.

## Know what is due

Invoices, receivables and supplier payables.

## Know what a file earns

Provisional and final P&L; monthly gross profit.

## Know where to focus

Employee dashboards, market analysis and MIS.

### Connect financial visibility to operational decisions.

Review the expected result and reconcile actual performance.

MORE ROUTES TO REVENUE

# One operational core. More ways to sell.

B2B

## Grow trade distribution.

Agent access / Market markups / Credit controls / Online bookings

B2C

## Build direct demand.

Branded booking experience / Traveller enquiries / Payments

LOCAL SALES

## Sell during the stay.

Representatives / Excursions / Collections / Commissions

### Extend channels around your mid office.

Scope each extension to your edition, market and sales model.

LOCAL DETAIL. PRACTICAL CAPABILITY.

# Different destinations. Different operating realities.

## Safari & regional circuits

Park fees, guides, imprest and multi-country quotations.

## Islands & resorts

Offers, blackout dates, allocations and connected transfers.

## Cities & shared services

SIC tours, shared transfers and service clubbing.

**Country editions reflect the way your destination works.**

Capabilities vary by country and plan. Explore your destination for the detailed scope.

LOCAL STRENGTH. SHARED OPPORTUNITY.

# A connected network. A mid office for each DMC.

Connect destination supply through a common B2B platform while retaining local operational control.

## Local control

Each destination manages its own products, rates and day-to-day operation.

## Wider distribution

Bring destination supply together for a common sales experience.

**Grow the network without losing the destination expertise.**

Roll out common standards, then adapt the local detail.

CONNECT THE WIDER ECOSYSTEM

# Your own products.
# A wider world of supply.

Bring selected external inventory and business systems into supported DMC24 workflows.

## Travel inventory APIs

Selected hotels, transfers, attractions and activities for quotation and booking workflows.

## Channel management

Supported exchange of hotel rates, availability and allocations.

## Payments

Connect online collections to the gateway, currency and sales channel you choose.

## Accounting & finance

Exchange agreed finance data around your chart of accounts and reconciliation needs.

## Output APIs

Distribute selected DMC24 products and operational information to wider platforms.

## Enterprise integrations

Scope custom connections for multi-DMC, reporting and business requirements.

**The purpose: connected supply, distribution and business information.**

Confirm data flow, access, responsibilities and reconciliation before implementation.

EXAMPLES FROM THE DMC24 INTEGRATION LIST

# The right connections. Defined around your business.

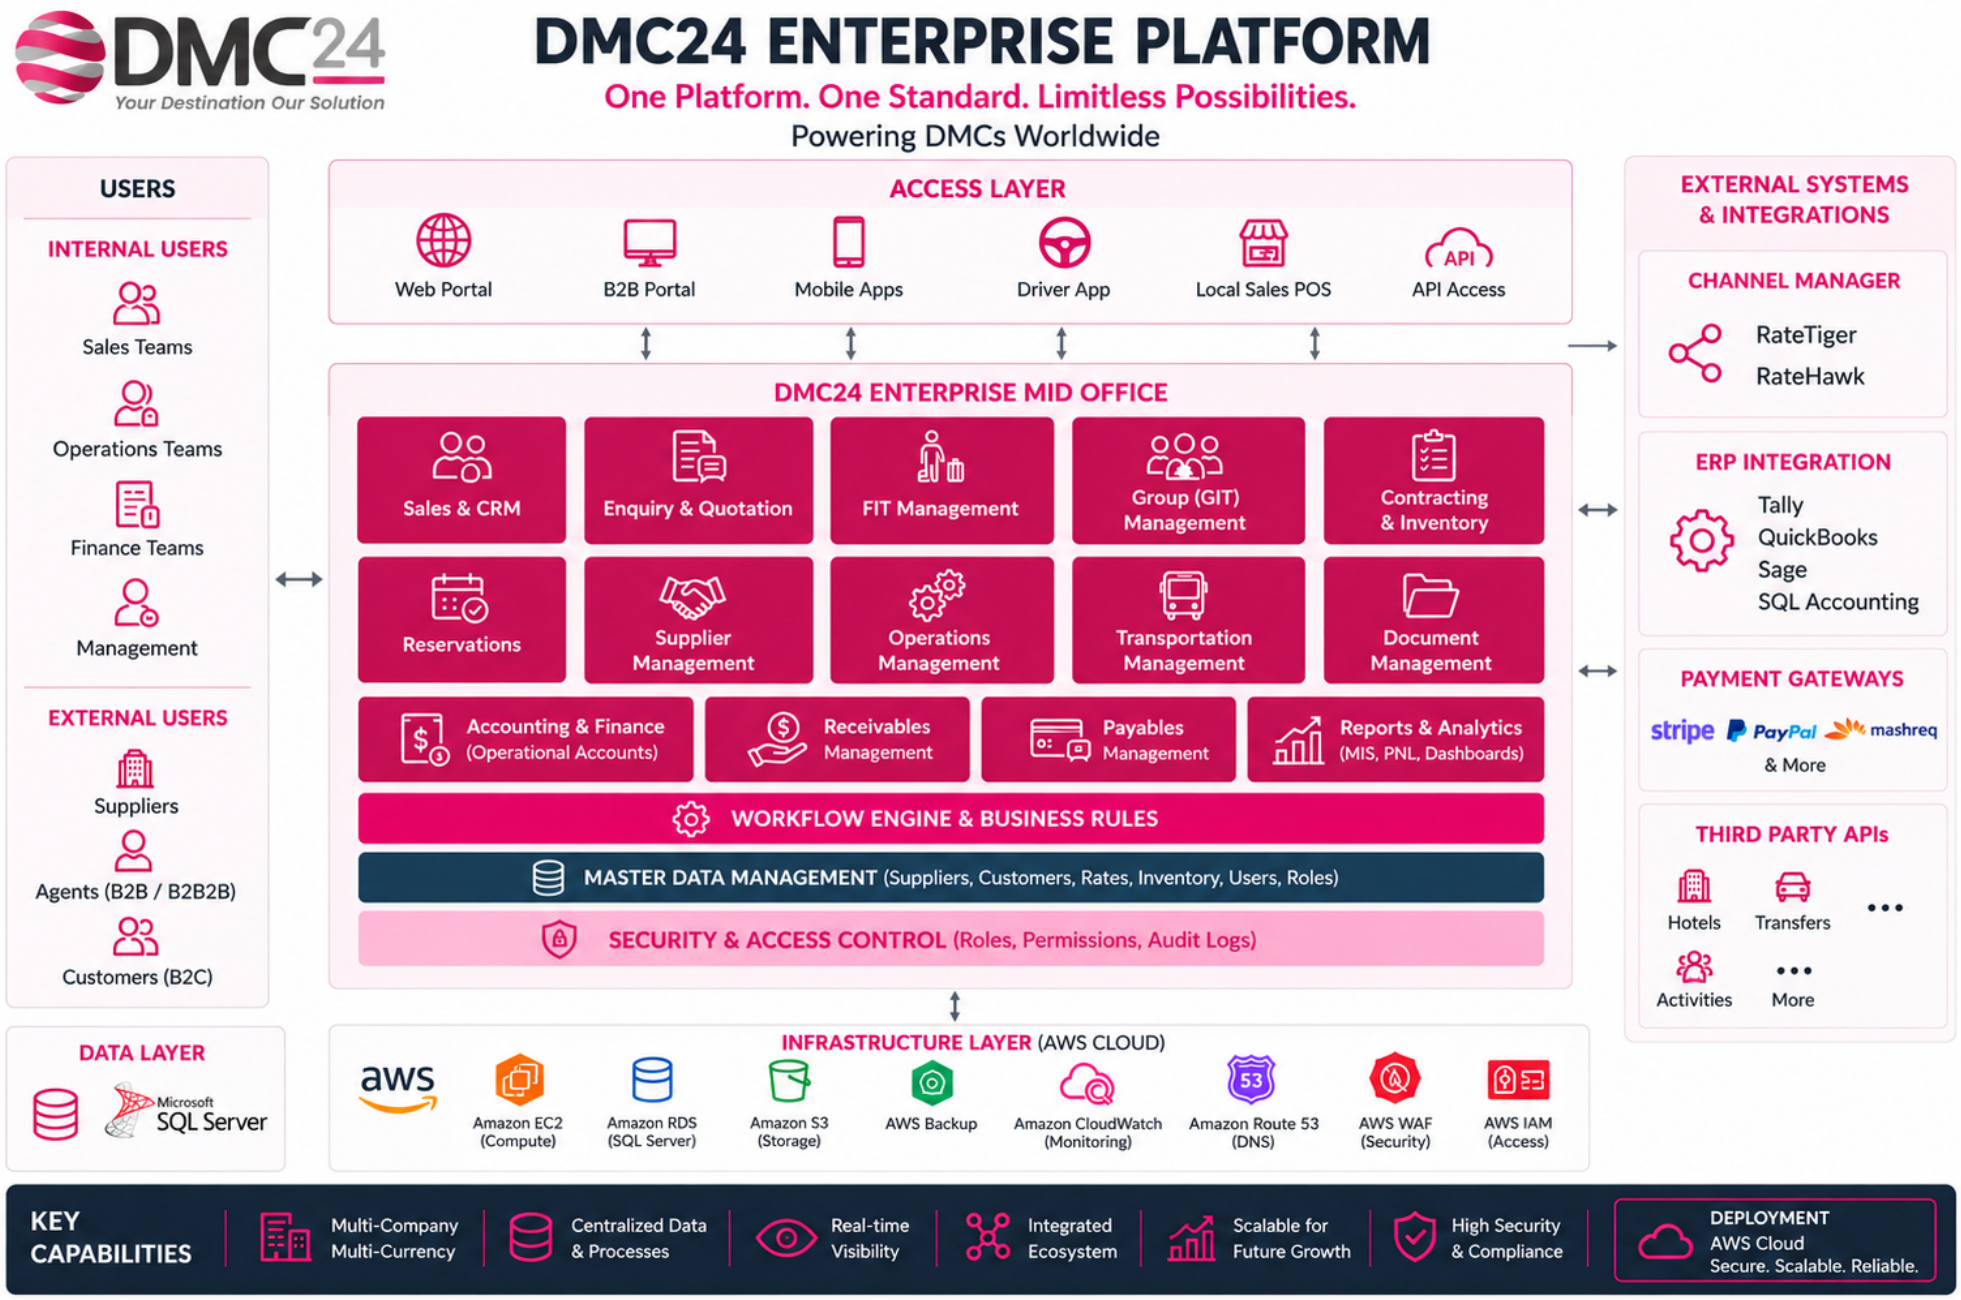

| | |
|---|---|
| **HOTEL INVENTORY** | TBO · Dida · Hotelbeds · WebBeds · Fairfocus · Infinite · SymRooms · Stuba · RateHawk · MG Bedbanks · HyperGuest · Jumeira Hotels · GIL API (AO) · Restel |
| **TRANSFERS & ACTIVITIES** | Hotelbeds Transfers · Taxilo · Hotelbeds Activities |
| **CHANNEL MANAGEMENT** | AxisRooms · Other supported channel managers |
| **PAYMENTS** | PayPal · Client-selected gateways · Payment wallet · QR-code payments |
| **ACCOUNTING** | Tally · Sage · QuickBooks · SQL Accounting |

Provider names are integration examples, not a blanket availability commitment. Final connectivity depends on API access, supplier approval, documentation, geography, commercial terms and the agreed implementation scope.

THE PLATFORM BEHIND THE PROMISE

# One connected enterprise architecture.

## USERS → ACCESS → MID OFFICE → INTEGRATIONS

Architecture overview. Apps, infrastructure, integrations and security controls are scoped and confirmed for each implementation.

MAKE TECHNOLOGY ADOPTION PRACTICAL

# A business change. Owned by your people.

## Align the people

Choose a sponsor and departmental owners.

## Prepare the foundation

Clean supplier, product, rate and opening-balance data.

## Teach real workflows

Train with your own enquiries, bookings and operations.

READY TO GO LIVE?

### Data checked

The team trusts its starting information.

### Scenarios tested

Key files work from end to end.

### Owners confident

Departments know their responsibilities.

PROVE THE MODEL. THEN EXPAND.

# Your next destination. A repeatable rollout.

### DISCOVER

Map the destination’s workflows, gaps and priorities.

### CONFIGURE

Set up products, users, commercial rules and scope.

### PILOT

Run representative files and resolve gaps with owners.

### GO LIVE

Launch with trained teams and agreed support.

### EXPAND

Reuse standards; adapt rates, taxes and local processes.

**Rollout pace follows readiness.**

Data quality, integration scope and team capability guide the implementation plan.

BUILD CAPACITY. EXPAND YOUR REACH.

# Grow from a stronger operational foundation.

ORGANISE

## Bring the core together.

Connected files / Shared processes

OPTIMISE

## Strengthen control.

Margins / Service status / MIS

DISTRIBUTE

## Open sales channels.

B2B / B2C / Local Sales

EXPAND

## Connect destinations.

Multi-DMC / Output API / Integrations

**Choose the next step your operation is ready to support.**
