

DMC24 MID OFFICE

# One travel file.
# One connected business.

Products, contracting, bookings, operations, finance and reporting.

THE BUSINESS CASE

# Connect the teams. Strengthen the operation.

### Less repeated work

Carry booking information across departments instead of rebuilding it.

### Faster quotations

Use contracted products and structured costing in one workflow.

### Better handovers

Keep sales, reservations and operations aligned around the file.

### Supplier control

Track requests, confirmations and service commitments.

### Financial visibility

Connect invoices, balances and profitability with each booking.

### Room to grow

Build the operational foundation for digital sales and Multi-DMC.

WHAT YOUR TEAM CAN DO

# Practical capabilities. Connected business value.

## Sales & CRM

Record enquiries, agents and customers; assign opportunities and follow-ups.

## Products & contracting

Hotels, transfers, transport, activities, entrance fees, meals, guides and extras.

## FIT & GIT quotations

Structured costing, commercial rules and digital, email or PDF itineraries.

## Bookings & reservations

FIT, groups, quick bookings, individual services, amendments and vouchers.

## Operations & logistics

Coordinate guest movements, vehicles, guides, suppliers and operational lists.

## Finance & MIS

Invoices, receivables, payables, file P&L;, monthly GP and management reports.

**Keep the sale connected to the service.**

Clear responsibilities and shared information support every handover.

CONTROL WHERE IT MATTERS

# A clearer workspace.
# A better-informed team.

## Shared information

Sales, contracting, reservations, operations, finance and management.

## Connected documents

Proforma, advance and final invoices; booking and supplier documents.

## Practical visibility

Employee dashboards, source-market analysis and operational reports.

## Profitability by file

Review provisional and final results alongside monthly gross profit.

INTEGRATION & EXPANSION

# Part of a connected DMC24 ecosystem.

## B2B distribution

Make selected destination inventory available to approved agents.

## B2C & Local Sales

Connect direct and in-destination selling to the operating core.

## Travel APIs

Scope hotel, transfer and activity supply where required.

## Accounting exchange

Agree transaction mappings and reconciliation with the finance system.

Availability depends on your selected edition, configuration and agreed scope. API connections require appropriate access, supplier approval, commercial terms and implementation validation.

A PRACTICAL PATH TO VALUE

# Prepare. Pilot. Launch with confidence.

## Map the travel file

Confirm how enquiries become quotes, bookings, services and accounts.

## Prepare the data

Clean suppliers, rates, products and relevant opening balances.

## Pilot real bookings

Test representative FIT and group files across all departments.

## Launch with ownership

Train departmental users, agree support and review daily adoption.

Rollout timing follows data readiness, team capability and the agreed implementation scope.

# Run the business behind every journey.
